

# Evergreen Medical Services, Inc.

## *Environmental Monitoring Services*

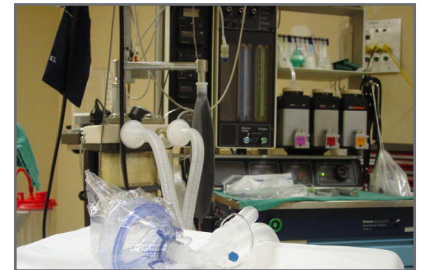

### On-site Evaluations

- Employee Exposure Monitoring - Measure work-place airborne chemicals to compare with permissible exposure limits (ceiling limits, 15 minute STEL and an eight-hour TWA).
- Leak Testing
- Air Exchange Measurements
- Supply and Exhaust Flows
- Positive/Negative Pressure Measurements
- Work Place and Practice Evaluations

### Chemicals Monitored

- Waste Anesthetic Gases (Nitrous Oxide & Halogenated Agents)
- Laboratory Chemicals (Formaldehyde, Xylene, Toluene, etc.)
- Glutaraldehyde / OPA
- Ethylene Oxide
- Acetic Acid

### Additional Testing

- Isolation Room Ventilation
- Anesthetic Vaporizer Accuracy, Maintenance and Calibration
- Indoor Air Quality (bacteria & fungi) - Air Particle Counts
- Respirator Fit Testing
- Hood Testing
- Employee In-services

### Passive Dosimeter Badge Monitoring

- AIHA Accredited Laboratory
- 15 minute STEL and 8 hour TWA
- Badges available for over 200 different chemicals
- Badges have 6-12 month shelf life
